At just 2” in height, the New Eclipse Mini Light Bar from SWS is one of the slimmest profile lights on the market.

Despite its slim profile, it sacrifices nothing in regards to visibility, durability, and reliability.

- Ultra-efficient LEDs and dual-beam optics drive it beyond SAE Class 1 standards for omni-directional devices.
- Its precision molded outer-dome and cast-aluminum base protect the critical electrical components from un-forgiving environments.

The wide selection of colors, mounting options, and unparalleled technical features ensure that there is an eclipse for your application.
Features

- LOW 2 INCH PROFILE
- SAE J845 (2013) Class 1 and CA 13 requirements
- BatteryCheck™ alerts you to critically low battery voltage
- Rugged Polycarbonate Dome and Lenses with UV inhibitors
- Heavy Duty Diecast E-Coated Aluminum Base
- Permanent Mount & 1”NPT Standard, for magnetic mount, vacuum magnetic mount and suction cup add M, V or S to end of part number
- AutoDim™ & Synchronization not available in magnetic mount, vacuum Magnetic mount and suction cup versions

Available Colors

- Amber
- Blue
- Clear
- Green
- Red
